THE AMAZING RACE FAMILY HEART HEALTHY CHALLENGE

Grab the kids and come out to the Rec for a fun night with the family on February 19. The Amazing Race will start out with teams receiving an envelope that contains clues to guide them to their first challenge. Teams will be timed on how long it takes them to complete each of eight challenges located in various parts of the Recreation Center during a one hour period. All challenges are simple and relatively easy to complete. Sometimes the whole family team will compete in the challenge and other times the challenge will only require a certain number of participants to play. If a family doesn't have enough team members then certain members can be selected to repeat the challenge. After the awarding of prizes family teams can enjoy the full facilities of the Rec Center including the pools, courts and walking track.

Prizes will be awarded to the teams with the fastest times who complete the most challenges.

This is a free event for all Medina Community Recreation Center members. At least one member of the team must be a current MCRC member. Non-member teams can join in the fun for just $10 per family team. Once you are registered and we have your email address we will communicate more details with you.

Advance registration is required and can be completed at the MCRC Front Desk.

Challenge your friends to take on your family in
