By my signature below, I am herewith acknowledging my understanding and acceptance of the following:

1. The structure that I am requesting to install must not impede the designed flow of water onto or across this property
2. If, after installation is completed, it is determined that this structure does indeed hinder the flow of water, I understand that it will be my responsibility to modify, remove and/or relocate this structure in order to allow for the natural flow of storm water runoff across this area
3. Further, I understand that it is the homeowner's responsibility to assure that the fence does not create future drainage issues on this or adjacent properties. Please direct questions regarding drainage to the City of Medina Engineers Office, (330) 722-9084.
